HIGHLIGHTS

EDI workshop at the 2018 OBFS Annual Meeting

EDI team members together with J. Tallant from the University of Michigan Biological Station conducted [a workshop on supporting curation and archiving of environmental data](#) at the Annual Meeting of the Organization of Biological Field Stations (Schoodic, ME, 9/19/-9/23/2018).

EDI presentations at the 2018 LTER ASM Meeting

[EDI co-organized and presented at several workshops](#) at the LTER All Scientists' Meeting (Pacific Grove, CA 9/30-10/4/2018), spanning a range of topics such as "EML 2.2, dataset annotation" to "Datasets for Education" and "Ten Cool Features of the EDI Data Portal (You've Probably Never Used)".

EDI's data curation and publication services for ecologists are highlighted in this [poster](#), presented at the 2018 LTER ASM meeting.

FEATURED DATA CONTRIBUTION

Interagency Ecological Program (IEP), B. Schreier, B. Davis, N. Ikemiyagi. 2018. [Interagency Ecological Program: Fish catch and water quality data from the Sacramento River floodplain and tidal slough, collected by the Yolo Bypass Fish Monitoring Program, 1998-2018.](#)

Environmental Data Initiative.
