

ENVIRONMENTAL DATA INITIATIVE

Newsletter . March 2019

Follow EDI on twitter [@EDIGotData](https://twitter.com/EDIGotData) and [@EDIdatapackages](https://twitter.com/EDIdatapackages)

HIGHLIGHTS

EDI is accepting applications for the 2019 Summer Fellowship Program

Deadline is 15 March 2019. Please visit [here](#) for more information.

Harmonization of weather and hydrological data in the EDI repository

Members of EDI, LTER and the US Forest Service are holding a workshop at the University of New Mexico (12-14 March 2019) on harmonizing weather and hydrological data in the EDI repository. Harmonization of those data supports data aggregation, reuse and synthesis projects.

Announcement of EDI Hackathon

EDI is continuing the development of the [Information Management Code Registry](#) with a hackathon at the University of New Mexico, 10-14 June 2019. More information is available [here](#).

FEATURED DATA PACKAGE

Edmunds P. 2019. [Virgin Islands National Park: Coral Reef: Population Dynamics: Scleractinian corals](#). Environmental Data Initiative.

EDI TECHNICAL INFORMATION & DEVELOPMENTS

EML Congruence Checker (ECC) adds new checks for file size

A pair of new EML Congruence Checks will ensure the intended data file(s) are supplied by comparing precise file size in bytes to that specified in the metadata. Read more [here](#).

UPCOMING WEBINARS & MEETINGS

For all of our upcoming events, please check out our [website](#) and [events calendar](#).

Webinar on 2 April 2019 at 2PM ET: [“Open Science Framework for Reproducible Research”](#).

Speakers: Natalie K. Meyers (University of Notre Dame) and Ian Sullivan (Center for Open Science). For registration and connection information, please see here:
